

MEDIA PLAYBACK USING *JW LIBRARY*

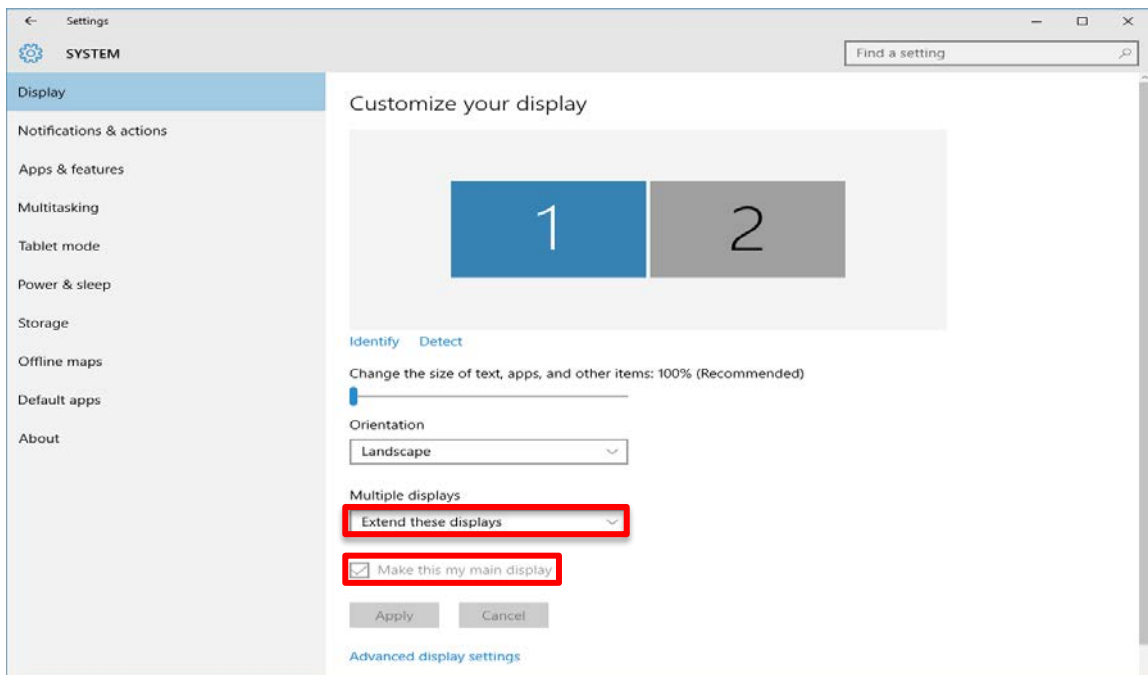

The following instructions outline the way to play songs and videos using *JW Library* in Kingdom Halls that are equipped with video displays and a computer running Windows 10. Similar functionality is available for iOS and Android.

SETUP

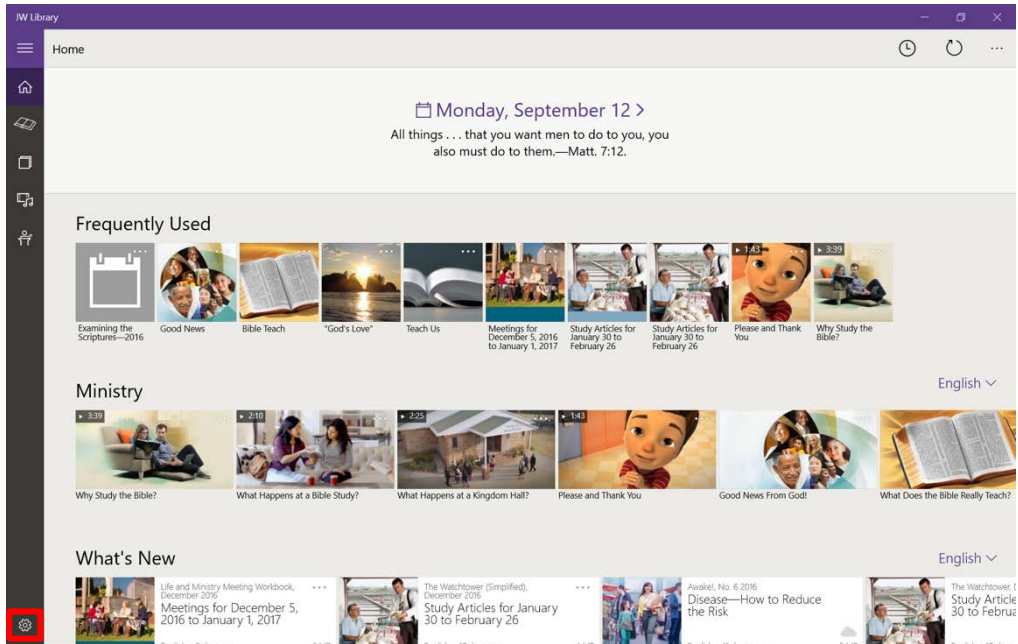

1. Ensure that the computer and the video display(s) are wired correctly.

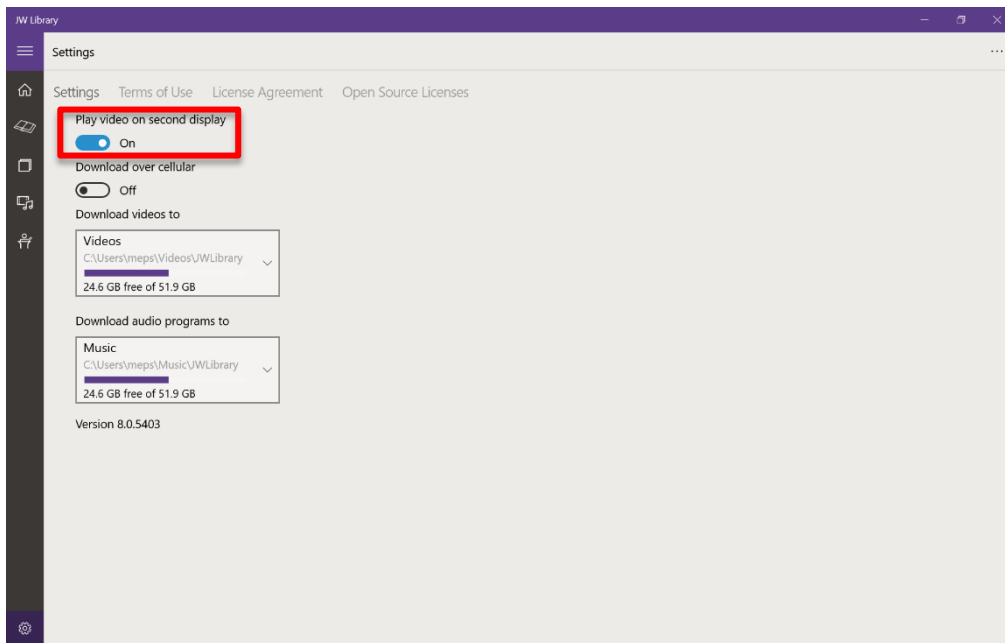

2. In the Windows 10 display settings, verify that the computer monitor is set to **"Make this my main display"** and that the **"Extend these displays"** option is selected.

3. In *JW Library*, click the “Settings”  button.

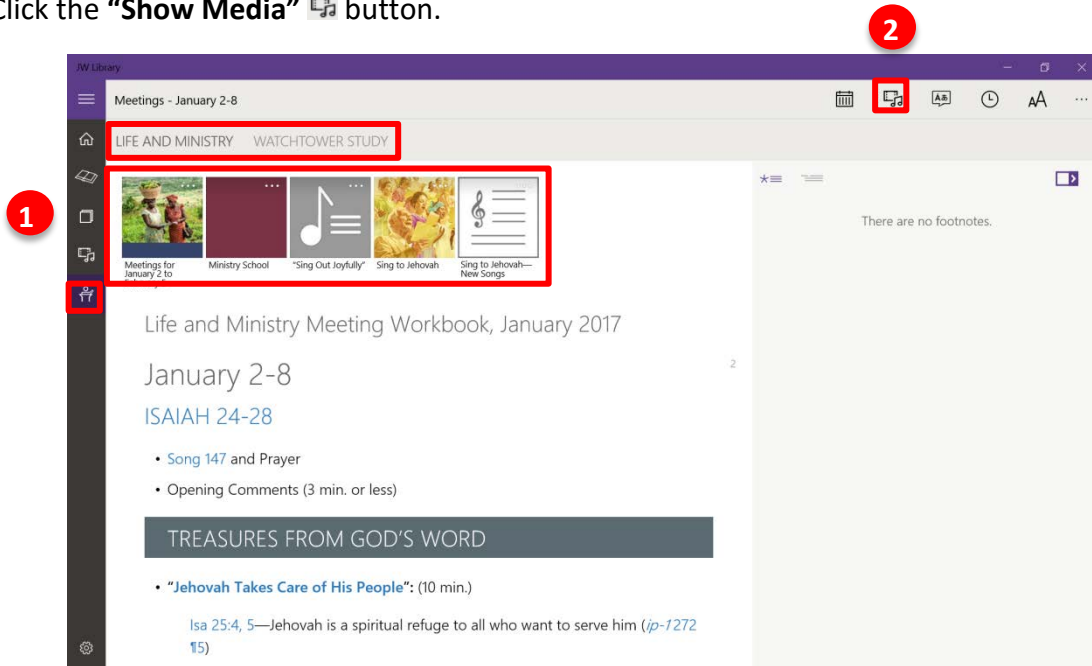

4. In the “Settings” window, set the “Play video on second display” option to “On.”

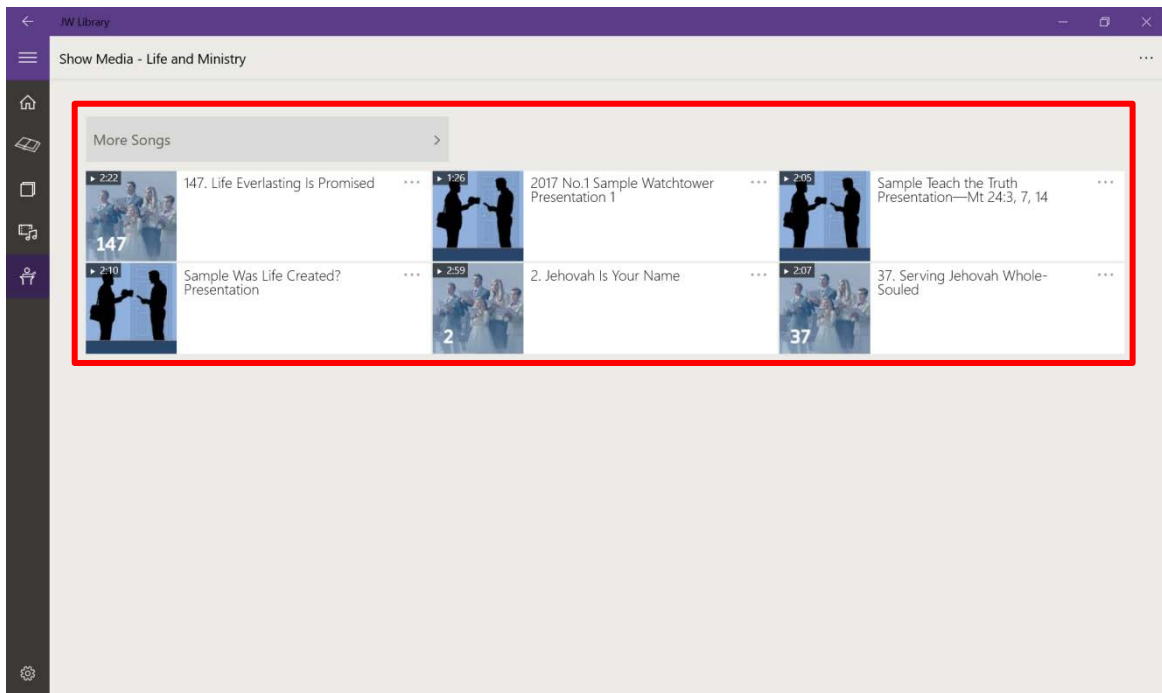

MEDIA PLAYBACK

1. In *JW Library*, click the “Meetings”  icon, and then select either “Life and Ministry” or “Watchtower Study.” Download the necessary publications.
2. Click the “Show Media”  button.

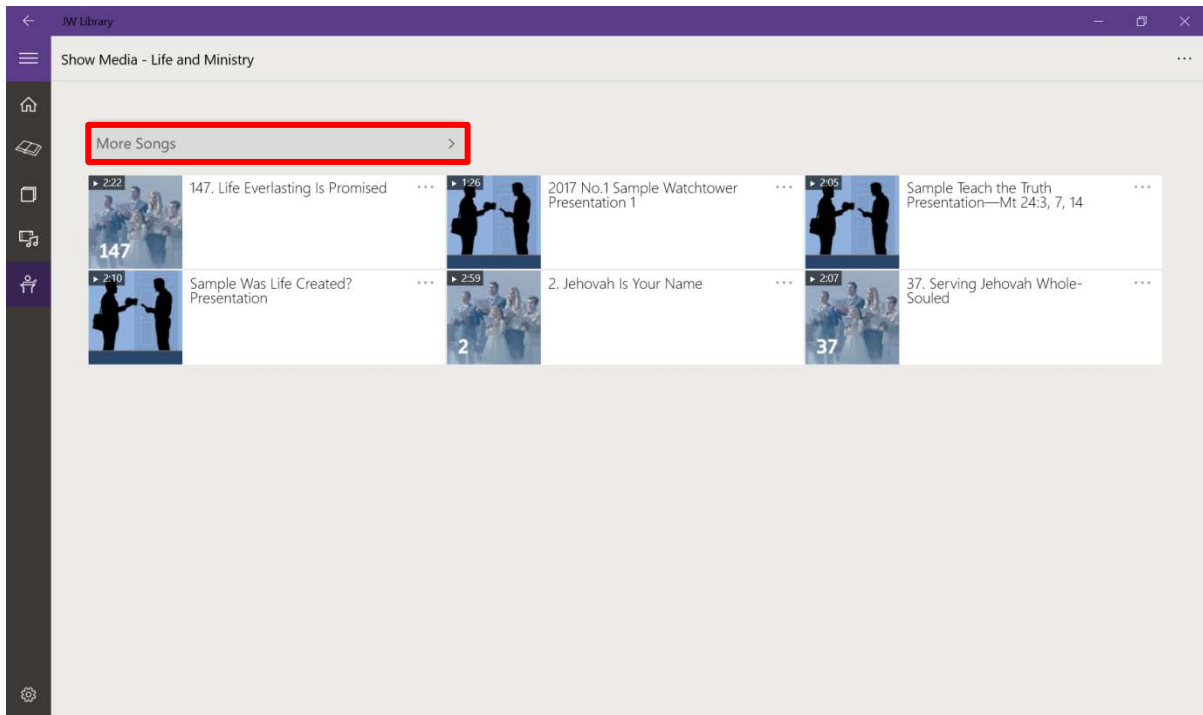

3. Download and play media in the “Show Media” window. Select “More Songs” to play a song that is not listed.

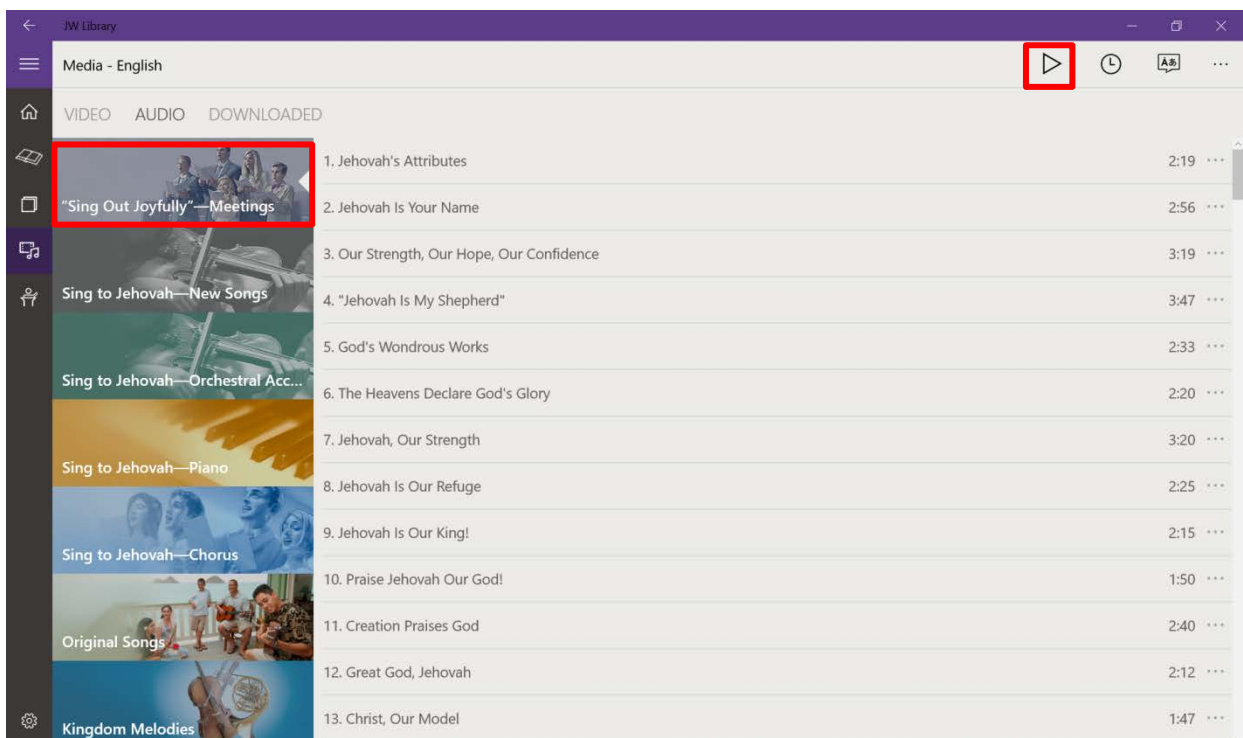

Playing Music Before and After Meetings

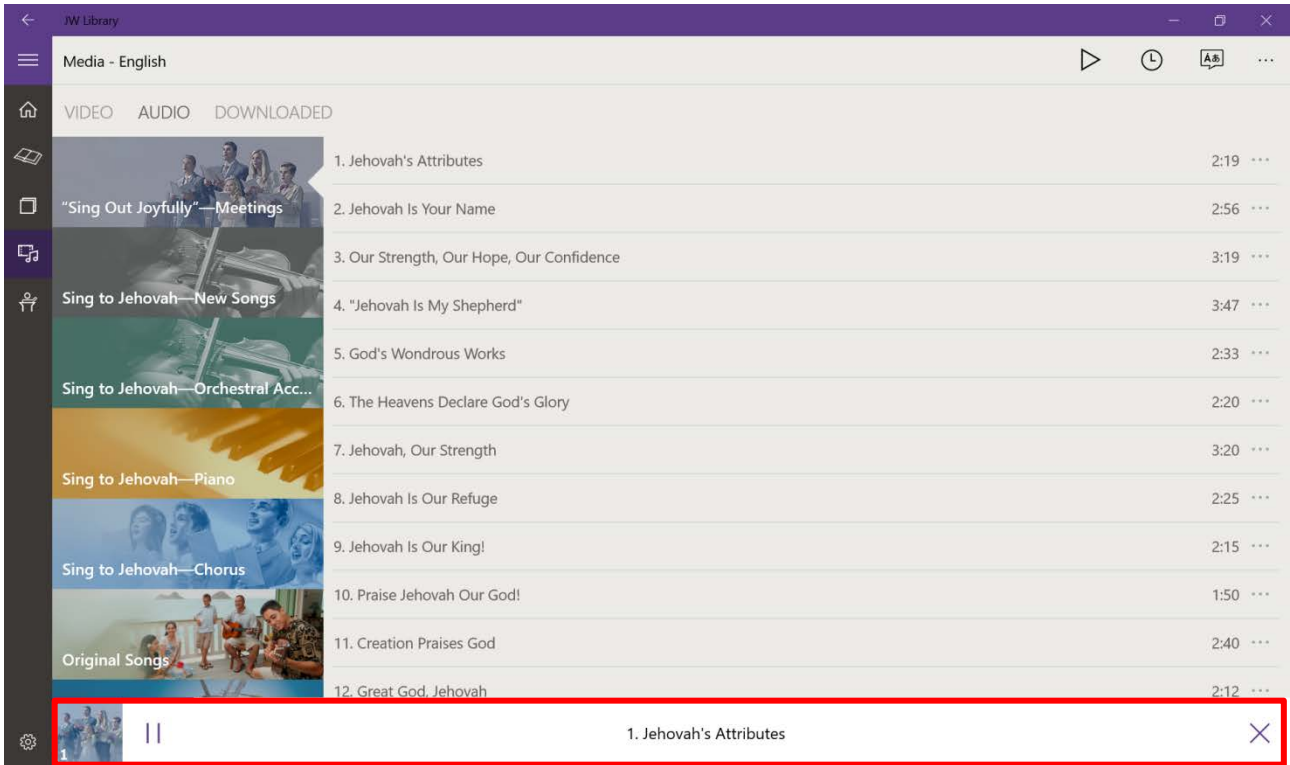

1. In the “Show Media” window, select “More Songs.”

2. In the “Audio” section, select “Sing Out Joyfully’—Meetings” and click the “Play All” button.

3. Click the bar at the bottom of the window to expand the media player.

4. To play the songs in a random order, click the **“Shuffle”**  button. (Note: This setting will only work if the **“Play All”** feature is used.) Once it is selected, the **“Shuffle”** setting will remain enabled. To disable it, click the **“Shuffle”**  button again. When the **“Shuffle”**  button is not selected, songs will play in numerical order.
