Watchtower Publications List

English (S-15-E Us)

Made in the United States

INTRODUCTION

This *Watchtower Publications List* (S-15) is a listing of publications and languages available to congregations in your branch territory. After each monthly announcement to all congregations of new publications available is received, please feel free to add the new publications to your list. This will help you to know quickly and easily what is currently available.

Each item listed is preceded by a four-digit item number. To expedite and improve the handling of each congregation's monthly literature request, please use the four-digit item number when requesting literature using the jw.org Web site or listing items on page 4 of the *Literature Request Form* (S-14). Special-request items, which are marked by an asterisk (*), should only be submitted when specifically requested by a publisher. Special-request items should not be stocked in anticipation of requests.

Languages are listed alphabetically in the *Watchtower Publications List*, with the language that the S-15 is being generated in at the beginning. Items in the *Watchtower Publications List* are divided into appropriate categories for each language. Within each category, items are alphabetized by the first word in the title of the publication. The categories are:
