Re: Branch Renovation Project

Dear Brothers:

In our letter of February 16, 2017, we informed you that the Governing Body had approved the project for remodeling our branch. No doubt that was exciting news that made us all very happy. This project differs from the one which had been previously approved, but this design is simpler and is quite adequate for present and future needs.

What will this project embody? How will it change the appearance of the branch? The following video presentation will show some of the changes that will take place.

[Show the VIDEO PRESENTATION ON THE SCREEN.

It is available in Spanish, English and Rumanian.

After the video, continue with the reading of the letter]

We pray for Jehovah's blessing on the preparation and construction work related to the remodeling of our branch, and we feel sure that you will include similar petitions in your prayers. It will be a pleasure to keep you up to date on the progress of the project.

Receive an expression of warm regards and Christian love.

Your brothers,

Testigos Cristianos de Jehová

NOTE TO THE COORDINATOR OF THE BODY OF ELDERS: This letter, along with the one dated January 15, 2018, should be read to the congregation at the midweek meeting of the week of January 22, 2018. The brother assigned should read this letter with clarity and enthusiasm, without rushing. The reading will be interrupted at the point indicated for showing the video. After the video, the reading will be resumed and the reading of the January 15 letter will follow. As all this will take about 10 minutes, the brother who conducts the Congregation Bible Study should be informed, so that he can shorten the study.
